# Kitchen Innovations™

## 2006 Expert Panel of Judges

### Martin Cowley

Sr. Mgr., Restaurant Design, Disneyland Resort

Cowley has been with Disney for 15 years and currently manages the design, construction, and food safety for the Disneyland Resort in California.

### Rick Gentry

Director, Tech. Services, ARAMARK

Gentry has 30+ years of industry experience in foodservice and foodservice equipment, including a decade in stainless-steel fabrication. He joined ARAMARK Design Development in 1998.

### William Eaton

President, Cini-Little International

President of the largest foodservice design consultancy in the world, Eaton has also served as the president of Foodservice Consultants Society International (FCSI) and is currently a fellow and the president of the FCSI Educational Foundation Board of Trustees.

### Robert Marshall

V.P., US Operations, McDonald's Corporation

Since 1995, Marshall has led a comprehensive research and development effort to create and redesign all major processes and associated facilities with a customer focus.

### John Egnor

President, JEM Associates

Founder of JEM Associates, Egnor is responsible for hundreds of both new and renovated projects, which have received national and international recognition.

### Robert Pacifico

Executive V.P., Romano/Gatland

Pacifico has over 30 years in the design profession including 25 years in food service planning. He has been responsible for planning and overall construction coordination for many original chain operations, both nationally and internationally.

### Robert Forrester

V.P., Concept Development, Quiznos Sub

Forrester brings 18 years of experience and leadership in technological roles at Pizza Hut, Whataburger, Taco Bell and Hardee's. He has created more than 1,500 kitchen and 500 equipment designs, including patents, trademarks and numerous industry firsts.

### Kathleen Seelye

President, Foodservice, Ricca Newmark Design

Seelye presides over the seven design studios that formerly made up Thomas Ricca Associates. Seelye has been directly involved in designing and selecting equipment in the foodservice industry since 1979, and has been with Ricca Newmark Design since 1984.
